

You can consult me for a psychic reading or a mediumistic reading or have a combination of both.

A psychic reading is all about you, enables you to have some guidance, in meaning, purpose and direction in life, or clarity on a specific topic that you have in mind.

I receive information by tuning into your energy and by working with my clairvoyant, clairsentient, clairaudient and claircognizant abilities.

The first part of the session I give you the information I receive and the second part we can talk more about a specific topic or you can ask me any questions.

A combination of a reading (or a healing) session with personal coaching, or just a session where you have questions about one specific topic is also possible.

In a mediumistic reading I invite your loved ones in the spirit world to join me. During their communication to you they will try to identify themselves to you, giving information about e.g. their personality, unique attributes, aspects or experiences, individual information or shared memories. Then often followed by a message, e.g. their advice to a current situation, encouragement for things coming-up, expression of love or saying that they are sorry. It may be an emotional experience. Although your loved ones are usually eager to communicate to you, it cannot be guaranteed who will link with me during the sitting or what kind of information is given.

In my general terms and conditions you can find more information and please feel free to contact me for any further questions or if you want to schedule an appointment. I look forward to meeting you.
